Injection moulded bins... printed graphics... custom design

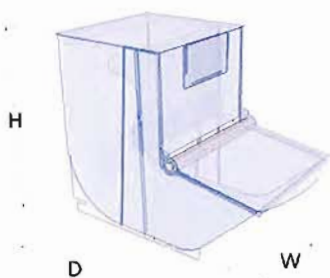

PIMP11 Range

front filling . gravity feed . injection moulded . slow down lids . permanent stock presentation

PIMP11

All dimensions in mm.

Product Code	W	D	H
PX0277	200	330	270

Slow down lids return automatically to ensure hygienic presentation. Front filling to allow restocking in situ. Injection moulded in virtually unbreakable polycarbonate. Integral ticket holder takes a 45 x 88mm ticket. Capacity 8.5 kilos approx.

Trough Bin

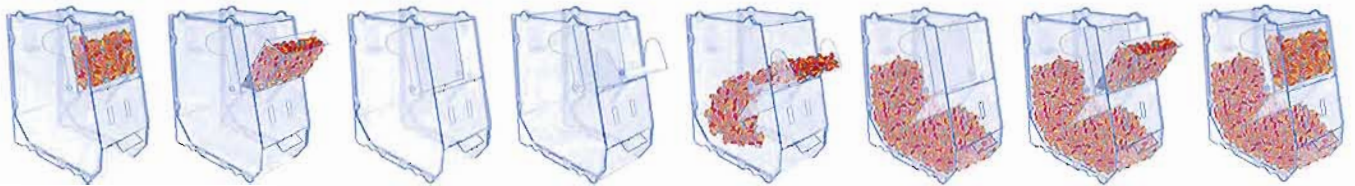

All dimensions in mm.

Product Code	W	D	H
PX0278 with lid	200	330	175
PX0279 without lid	200	330	175

Slow down lids return automatically to ensure hygienic presentation. Injection moulded in virtually unbreakable polycarbonate. Integral ticket holder takes a 45 x 88mm ticket. Filling via the rear lid allows stock rotation, Capacity 6 kilos approx.

PIMP6 Range

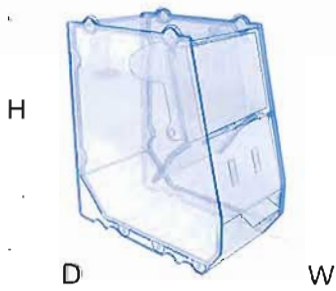

gravity feed . injection moulded . front filling . stackable . permanent stock presentation

PIMP6 Single

All dimensions in mm.

Product Code	W	D	H
PX0155 single	169	300	330

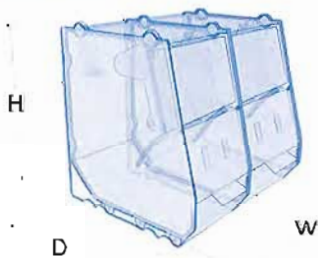

Front loading and stackable, permanent stock presentation, easy to clean. Injection moulded in food safe PETG producing a high quality product resistant to sweet additives and cleaning agents. Front filling to allow restocking in situ. Capacity 6.5 kilos approx.

PIMP6 Double

All dimensions in mm.

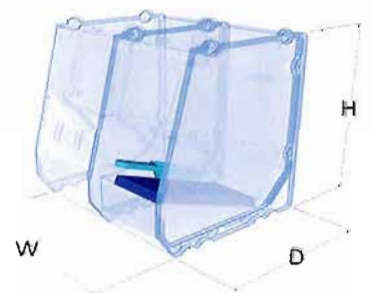

Product Code	W	D	H
PX0157 double	330	300	330
PX0166 double/bags	330	300	330

PX0157

All the same benefits as the PIMP6 but double the capacity. PX0166 has a bag holder section on the right and sweets on the left.

Double - bag dispenser

PX0166

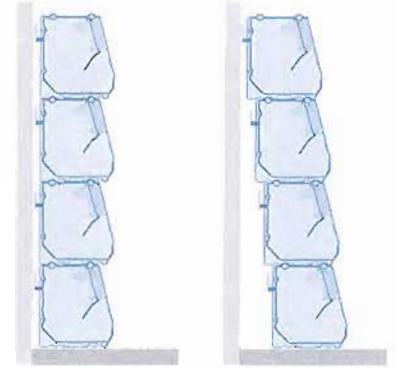

Adjustable Back Bar

All dimensions in mm.

Product Code	W
PX0140	600 - 1000
PX0141	1163 - 1350

Simply place the Back Bar into the hook at the rear of the bin, then slot the bar into your gondola upright to prevent the display from tipping. PIMP6 can be stacked straight or liered.

Safety Extrusion

Back base with adhesive

Front base with adhesive

All dimensions in mm.

Product Code	W	D	H
PX0011 Front	1240	25	-
PX0004 Back	1240	40	-

The extrusions attach to the shelf with adhesive foam tape. The bins then slot securely on extrusions to prevent children from pulling off the shelf. Store staff can lift and remove bin for easy reloading and cleaning. Can be supplied to almost any length.

Scoop

All dimensions in mm.

Product Code	W	D	H
PX0184 scoop	-	-	-
PX0188 tongs	-	-	-
PX0044 flexible coil	-	-	-

PX0184

Scoops and tongs are light blue as standard and are made from food safe material. The flexible coil can stretch from 130mm to 500mm.

Tongs

PX0188

VisiBin™
